

Quality Management Policy (1/2)

Technolution takes care of its customers' needs in the field of complex technological subjects with highly demanding requirements. Technolution delivers working solutions in which electronics, programmable logic, and software work in perfect harmony. Solutions that are often groundbreaking and that make an essential contribution to realizing the objectives of Technolution's customers.

Technolution is committed to becoming and remaining the best partner for our customers. Our mission is: *'Realizing technological improvement for our customers and society'*.

Continuous improvement and the creation of working systems is close to Technolution's heart. Technolution solves complex customer issues by simplifying them instead of making them more complex. Our philosophy is: *'Simplicity is the soul of quality'*.

Technolution has been ISO9001 certified since 1998. The scope of the Quality Management System is:

- Providing services regarding advice, specification, development, certification and life cycle management of software and electronics for technical automation
- Providing products and systems and related services in the field of hardware and software
- Providing services in the field of project administration

Technolution's quality management policy is aimed at:

- Providing fitting solutions based on customer requirements
- Responding to the expectations of stakeholders
- Managing risks and taking advantage of opportunities
- Adapting to a changing environment
- Securing knowledge and creating a professional working environment
- Complying with relevant laws, regulations and other requirements

The Executive Board will ensure that the objectives of the Quality Management System are evaluated and updated on an annual basis. In this way, Technolution implements concrete quality measures, keeps the Quality Management System up to date and constantly works to improve it.

Gouda, 15 August 2025

On behalf of the executive team,

Jan van der Wel
CEO

Scope Quality Management Policy (2/2)

The quality management system encompasses all operating companies belonging to the TechnoInvest Holding BV.

In addition, multiple operating companies are certified separately on the basis of the activities that they perform. These operating companies, together with their locations and the scope of their activities for the quality policy, are listed on the ISO9001 certificate.
